## EXPERIENCE

### eCaribbean Limited | 2005 - 2017

Having been employed at eCaribbean Limited from its startup in 2005, I was essential in the company's success and longevity. As one of the Caribbean's primer web solution providers, the company now boasts having produced over 120 projects, as well as currently managing over 200 domains. My responsibilities increased with my position from **Web Designer** to **Chief Developer and Project Manager**.

- Prospected new clients and wrote proposals for development work.
- Negotiated website revamps for existing and new clients to improve efficiency and appeal and increase website traffic.
- Developed and presented website mock-up concept and project plan based on clients' need and industry trends.
- Successfully managed web projects from conception to launch working individual and with a team. Maintaining active communication with clients to ensure project goals are met.
- Managed clients' branding initiative with logo, website, business card and letterhead design.
- Performed quality assurance to ensure project features and applications were implemented according to specification.
- Set up training sessions and packets for clients using a content management system.
- Guided and trained interns and employees to help them develop effective web design and development skills and strong client relations.
